

TUBERÍAS LISAS HDPE

WWW.GEOSINTETICOSEMARESA.CL

Emaresa incorpora a su línea de productos, las tuberías de lisas HDPE. Una solución para el transporte de fluidos gravitacionales para la minería, agricultura, desagüe en instalaciones sanitarias entre muchas otras aplicaciones. Se fabrican con polietileno de alta densidad, bajo procesos de extrusión de pared simple y coextrusión de pared doble, permitiendo por este medio producir tuberías de pared estructurada de alta rigidez, con una capa interior lisa y una capa exterior corrugada.

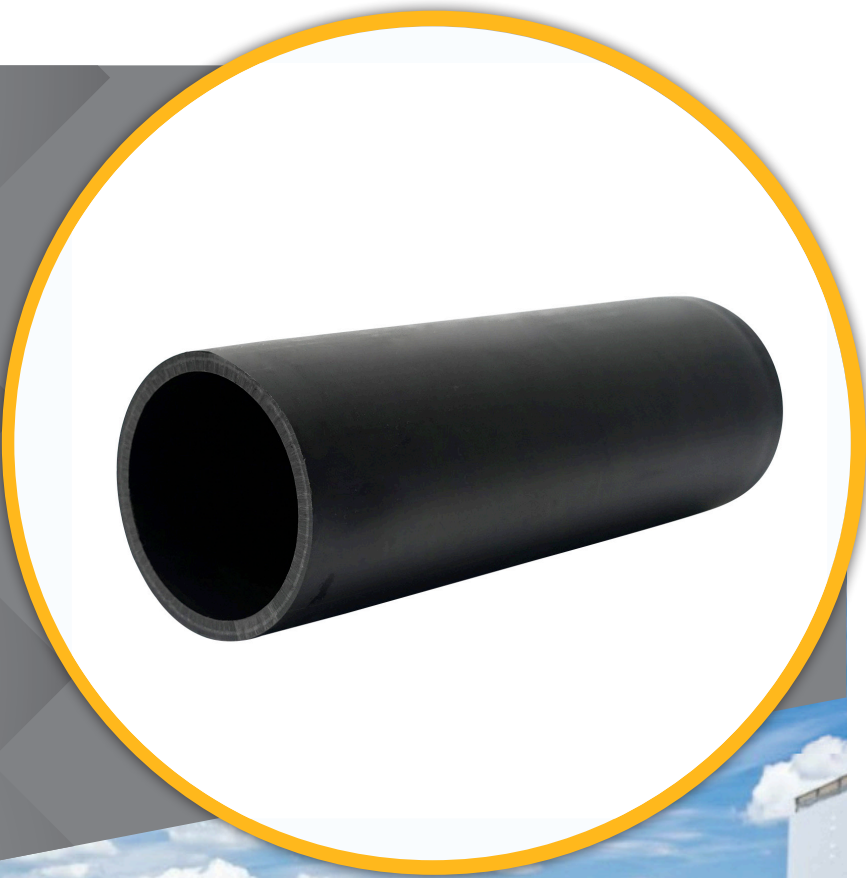

TABLA DE DIMENSIONES TUBERÍAS HDPE PE100, SEGÚN NORMA ISO 4427 / 2007 Y NCH 398/1 (tensión admisible 80kg/cm²)
